

A Message of Love for Humanity

The Revelation

“The Word of God is once again made manifest among us.”

--The Teachers of Love

*“It is not easy being a Channel. I am a Channel by choice. I was called; I answered the call. The call is to deliver, ‘**A Message of Love for Humanity.**’*

--Moriah

Why now? Humanity is going through a difficult phase of earth’s evolution. Until recently, Humanity was of some interest to the greater planetary society. It is only in the past few decades that interest in Humanity by the Others has intensified.

Why? Humans are explorers, and they are no longer content exploring only planet earth. They have reached out into space gingerly in the past. This outreach created a concomitant response by the Others. The Others have increased their observations and integration. What began primarily through incidents such as Barney and Betty Hill experienced, have multiplied exponentially. Human DNA is no longer only human. The integration of Others via the taking of human sperm and ova was quickly replaced by genomics. Human DNA has been disrupted. Some humans are still of human-only lineage. Many, of recent generations, are not. They are hybrids, and this can be evidenced by special gifts of telepathy; knowing and hearing what other humans cannot; and, in some cases, higher perspective.

What is higher perspective? Higher perspective is the ability to see, hear, sense, smell, and know that which cannot be perceived by simply humans.

Do we have Hybrids among us living on earth now? We do indeed! Moriah is such. Long recognizing that she viewed and experienced the world differently from others around her, she hid her differences to avoid ridicule and discrimination. Now she is coming forward with a Message--‘A Message of Love for Humanity.’ Humanity will be invited to join in the Love energy. Those who are unable will fall away. Those who are threatened will strike out. Therefore, Moriah has waited cautiously before “coming out” publicly. Some will recognize her; many will not. Some will try to use her for their purposes. She will need to be most cautious to protect the Messenger and the Message.

'A Message of Love for Humanity' is being given through Moriah by the Teachers of Love. It is given freely. All are invited to join. Those who join will be guided through the evolution that is occurring. And so, it is.

The Invitation

You are invited to join the Love energy that is God, Allah, Higher Power, or by whatever name you choose. Love invites all to join.

Regardless of your religious affiliation, you are invited to join. If you have no faith or belief system, you are invited to join. If you are spiritual but not religious, you are invited to join. Every person is invited, but not every person will be able. Only those who desire Love, who deeply want to evolve spiritually, will be able.

Membership in New World Empowerment Ministries is open to every person. There are no dues. You do not need to relinquish your religious faith and traditions. 'A Message of Love for Humanity' does not replace existing faiths. It is simply, the Next Step.

If you feel called to deepen your relationship with the Divine.....

If you desire to make a meaningful contribution to society.....

If you want to expand your understanding of spiritual gifts.....

If you feel called to respond to the tremendous challenges facing Humanity.....

Please join us!

This is not about replacing one religion with another. This is about coming together from all walks of life, to accept the next gift of spiritual awakening and understanding.

We do not replace all that has previously been revealed to Humanity by its beautiful variety of spiritual revelations.

We stand on the shoulders of all who have come before--and we take the next step. The next step is the revelation to Humanity by the Teachers of Love who are High Teachers not currently incarnated on earth. The next step is, 'A Message of Love for Humanity.'

Moriah is only the Messenger. She is a Spiritual Teacher and Leader. It is the Message, not the Messenger, that is important.

You are invited to take another, giant step in your own spirituality. You are invited to join the Teachers of Love as they reveal to you, 'A Message of Love for Humanity'. It is so ordained.

The Challenge

Why are people afraid?

Humanity stands on the precipice with it's head in the sand.

Everywhere, life is changing. There is the anticipated change of seasons, of adults having children who then become adults and have children. There is learning passed down through families, schools, churches. There are governments. There are people seeking freedom. There are those who have too much; there are those without. There are those who contribute their lives, their time and talent, toward the betterment of society. There are those who simply take. And there are those who will maim and kill to get their needs or wants satisfied. There are those who devote their lives toward a higher purpose; there are those who demean and take advantage of that same gift of caring.

All of these, and more, are the changes and challenges Humanity faces daily.

However, primarily out of sight, Humanity will encounter it's biggest ever challenge. Others not from earth have taken particular interest in this planet that is expanding it's outreach farther, and more often, than ever before. As the Others watch Humanity, they can see a race, the Human Race, appearing to be bent toward ultimate planetary destruction. Negligence with the atmosphere and water by unchecked pollution threatens long-term habitability of earth.

Humans are tribal and warlike. In spite of apparent shrinking of the planet due to expanding communication technologies, self-interest, and lack of knowledge and power, threaten Human existence in ever-changing political landscapes. Wars, threats, posturing, and expanding weapons capabilities create a morphing landscape of terror and destruction.

Experiments in laboratories, unchecked by controls, allow for unprecedented "accidents" whether bacterial, viral, chemical, through cloning, as well as growing and expanding technological possibilities. If the mind can imagine it, can can be created--for good, or for evil.

Imagine being one of the Others. Would you stand by while a delicate planet with rich biodiversity were being destroyed by selfish and uncaring humans? What would be your impulse? Might it be to take over the earth before it is destroyed? What if your own planet had become uninhabitable? Might planet earth appear to provide solutions to your environmental issues?

Many Experiencers (Abductees) have tried to warn Humanity. After being given apocalyptic visions of earth, Experiencers have tried to tell their stories of what could happen if current Human behaviors go unchecked. Failing to listen, is Human life, or the continuance of autonomous Human life on earth, at great risk? It is! Human survival, and autonomy, are at stake while we continue to be concerned with small day-to-day issues. With our heads in the sand, our lives are exposed to whatever or whomever may wish

to overcome us for their own purposes. The time to awaken is now! Only if we begin now will we have a chance of surviving. The Invitation is now given! The choice belongs to each of us. Choose wisely! Choose well.
